

## Notice on the support of Self-Pick up orders on the SaleYee distribution platform

Dear distributors,

Hello,

In order to further improve the efficiency of order processing and optimize your distribution experience, we have officially launched the "Self-Pick up order" function. We can support official orders from major mainstream sales platforms such as Temu, Wayfair, Walmart, etc. for fulfillment and delivery, helping you avoid the risk of conflict between logistics channel information and sales platform rules, and ensure the compliance and timeliness of orders.

Distributors can download the attachment or check help center to view the specific operation content of the "SaleYee Distribution Platform Self-pick up Function Operation Guide", thank you.

SaleYee will do its best to provide partners with better services, thank you for your trust and support for SaleYee .
